

SIGNUM 21
MARBLE CREATION

INNOVATION AND TECHNOLOGY AT YOUR SERVICE

WE TRANSFORM STONE INTO WORKS OF ART

With over thirty years of experience in the construction industry, the five founding brothers of SIGNUM21 combine traditional building techniques, marble culture and contemporary design vision. From large civil and industrial works to the processing of precious materials, each project is born from a balance between technique, design and craftsmanship.

Each slab tells the story of its solid origins and evolution, giving it shape for the architecture of the future.

Precision, innovation and attention to detail guide every phase of our work, because for us, quality is not a result but a principle.

FULL SUPPORT: FROM CONCEPT TO IMPLEMENTATION

We support our customers at every stage of the project, offering an integrated service: consulting, design, manufacturing and technical assistance.

We create tailor-made solutions for interiors and exteriors, civil and naval, offering a customised experience based on quality, consistency of execution and craftsmanship excellence.

Every project is unique and our method enhances it.

THE RAW MATERIAL OF EVERY PROJECT IS A CONSCIOUS CHOICE

We guide our clients in selecting the most suitable materials, rigorously evaluating every technical, aesthetic and functional requirement.

We combine design expertise with artisan experience, offering advice that guarantees lasting results consistent with the identity of the work.

WE DESIGN WITH VISION, WE MANUFACTURE WITH PRECISION

We develop tailor-made projects, adapting materials, shapes and finishes to the customer's needs.

The integration of advanced technologies and craftsmanship allows us to transform every idea into a concrete, functional and aesthetically striking creation.

QUALITY TAKES SHAPE IN THE DETAILS

Each stage of the process is carried out with artisan care and reviewed by a technical inspection, in order to guarantee precision and enhance the final product.

The combination of expert craftsmanship and latest-generation technologies allows the stone to be enhanced in its most authentic expression, resulting in a unique product that stands out over time for its uniqueness.

The background is a high-contrast black marble with intricate, flowing veins of gold and light grey. The veins vary in thickness and direction, creating a complex, organic pattern. The text is centered horizontally and vertically in a clean, white, sans-serif font.

WE GIVE SHAPE TO YOUR IDEAS

MOSAIC

Marble mosaic flooring that combines classic elegance and craftsmanship, with tiles in shades of ivory, pearl grey and beige.

In the centre, a decorative rug with geometric patterns stands out, where black Marquina creates sharp contrasts and three-dimensional effects, giving depth and dynamism to the room.

INLAY

An intertwining of floral motifs in marble tiles, with Alpi green for frames and plant decorations, Lepanto red for depth and Siena yellow for bright golden accents.

Calacatta white harmoniously alternates with more intense tones, in a refined balance made possible by master craftsmanship.

BATHROOM YACHTING

Monolithic washbasin with visible natural grain.

The matching floor and full-height mirror enhance the symmetry within the master bedroom.

BATHROOM SINKS

Washbasins carved from a single block of white marble, an expression of master craftsmanship.

An elegant and functional solution for contemporary environments.

FIREPLACE

The fireplace is integrated into a red Carpathian marble boiserie, characterised by a flared finish with a diamond cut on the edge of the slab.

The composition defines a surface with an essential, sophisticated and timeless design.

CRAFTSMANSHIP

Entirely handmade using a chisel and hammer on white marble.

Every detail takes shape thanks to the mastery of the craftsman, making each sculpture a unique and unrepeatable piece.

ATTENTION TO DETAIL

A decorative element with a classic style, carved from slabs of light-coloured marble.

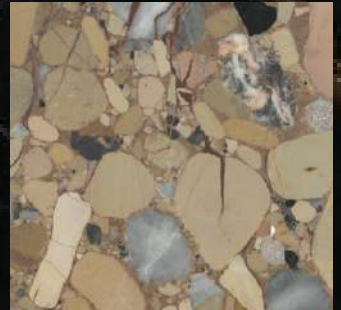

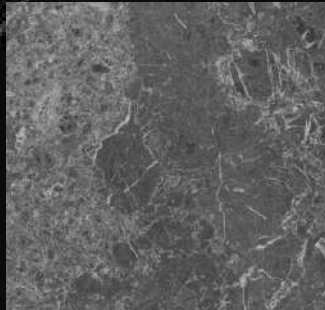

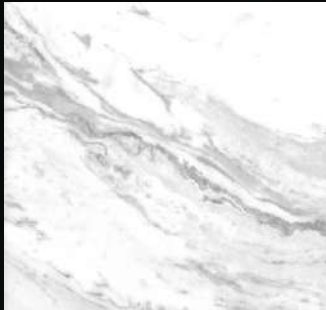

The CNC shaping and hand finishing enhance the Baroque profile, ideal for formal settings or custom-made furnishings.

A full-page background image of a black marble surface with intricate, flowing gold and light grey veins. The veins create a complex, organic pattern across the entire frame.

MARBLE COLLECTION

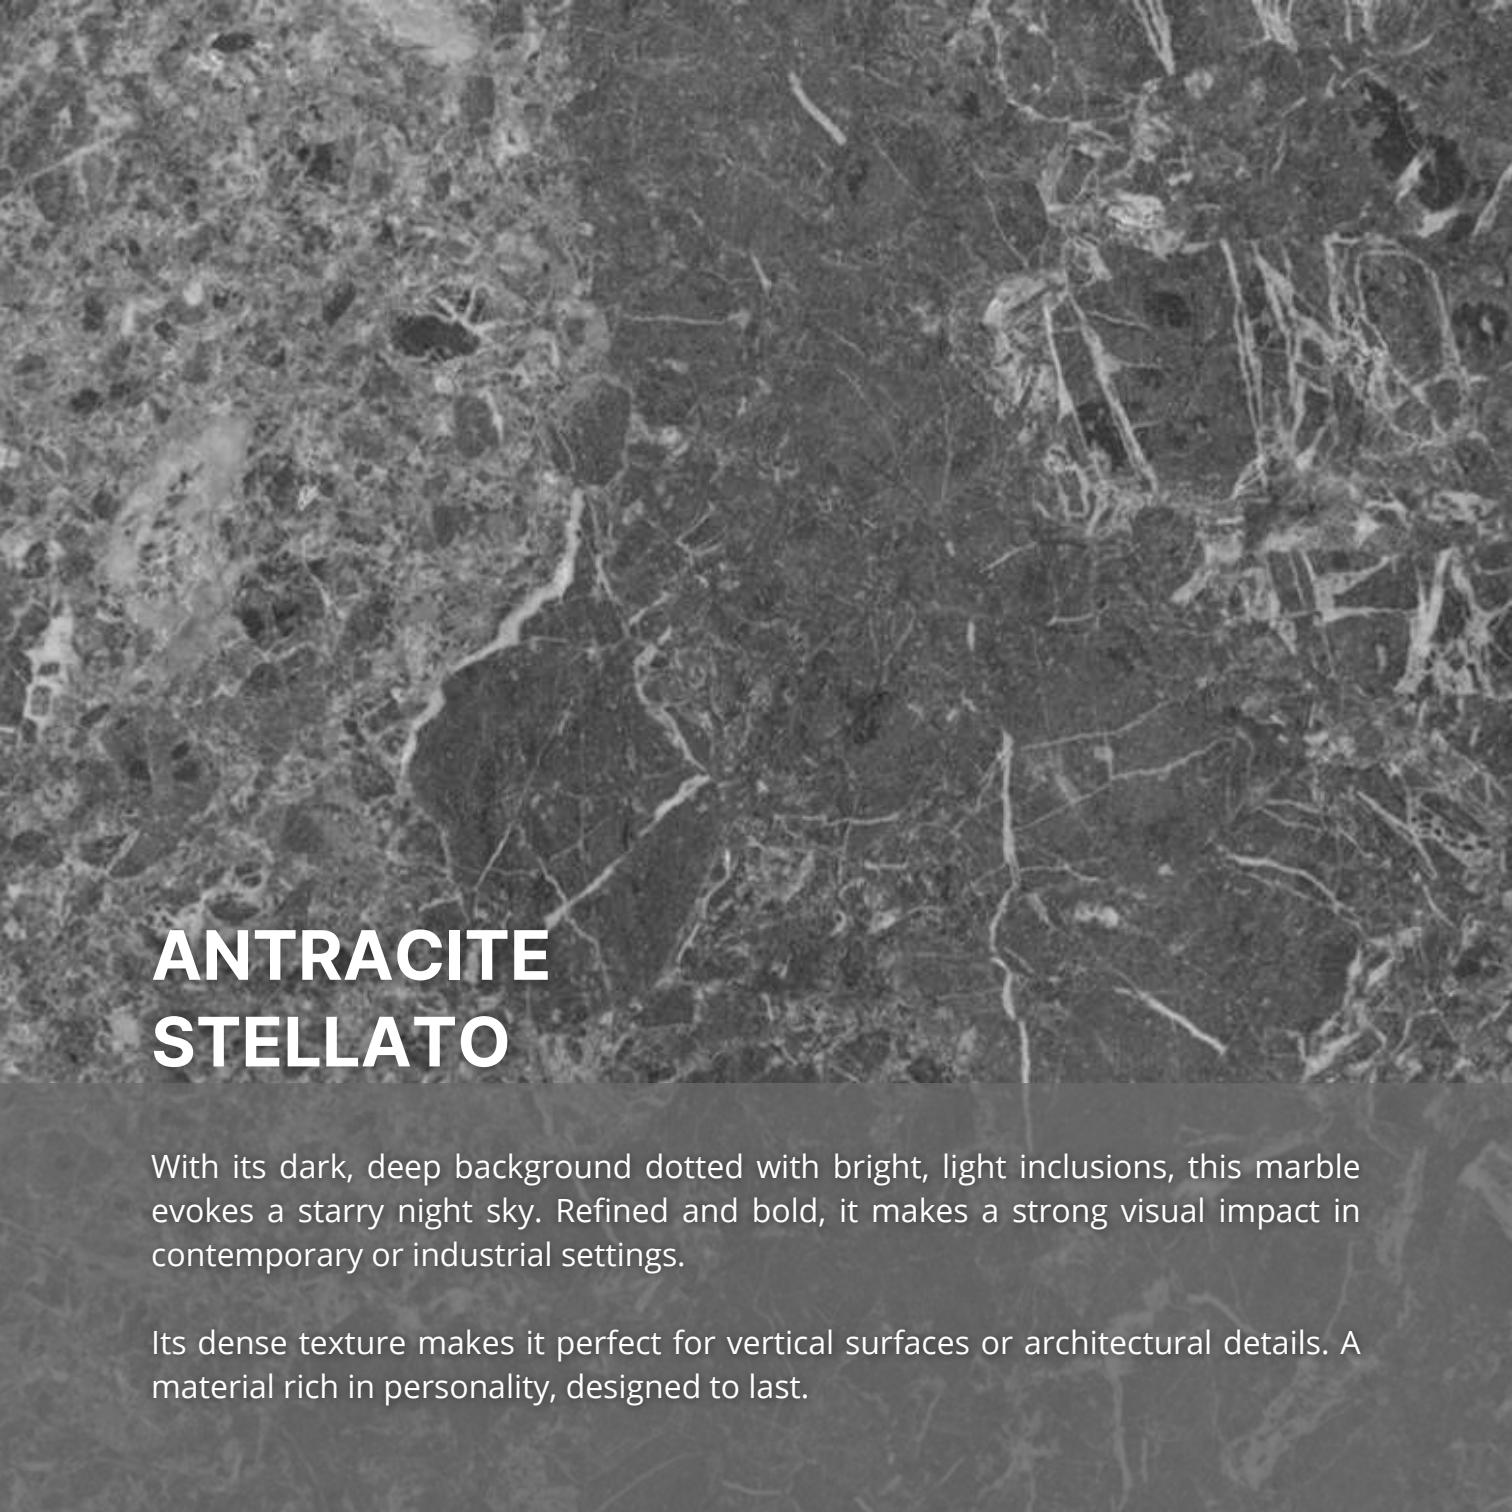

The background of the entire page is a close-up photograph of Alba Venata marble. It features a light, milky white base color with intricate, flowing veins of soft grey and taupe. The veins vary in thickness and direction, creating a dynamic and elegant pattern. The lighting is soft, highlighting the natural texture and subtle color variations of the stone.

ALBA VENATA

Precious marble with a milky white background, crossed by fluid and soft veins in pearl grey tones. Its timeless elegance makes it perfect for modern or classic environments.

It brings brightness to spaces, enhancing large surfaces such as floors, wall coverings and kitchen tops. Ideal for projects that require sobriety and refinement.

The background of the entire image is a close-up, high-resolution photograph of a marble surface. It features a dark, charcoal-colored base with intricate, swirling patterns of lighter, off-white and light grey veins. The texture is organic and complex, with some areas showing more pronounced veining than others. The lighting appears to come from the upper left, creating subtle gradients and highlighting the natural grain of the stone.

ANTRACITE STELLATO

With its dark, deep background dotted with bright, light inclusions, this marble evokes a starry night sky. Refined and bold, it makes a strong visual impact in contemporary or industrial settings.

Its dense texture makes it perfect for vertical surfaces or architectural details. A material rich in personality, designed to last.

The image shows a close-up of a Breccia Grey stone surface. It is a natural mosaic of various rock fragments in shades of grey, black, and ivory, held together in a matrix. The fragments are of different sizes and shapes, creating a complex, dynamic pattern. The overall appearance is that of a high-quality, natural stone material.

BRECCIA GREY

A combination of polychrome fragments in shades of grey, black and ivory, joined together in a striking natural mosaic.

The visually complex composition enhances elegant and dynamic spaces. It is particularly suitable for representative environments or decorative accessories. Each slab is unique.

The image shows a close-up of a Breccia Red stone surface. It features a complex pattern of irregular, angular fragments in various shades of beige, tan, and light brown, set against a darker, reddish-brown matrix. The fragments vary in size and shape, creating a mosaic-like effect. Some fragments have a smooth, polished appearance, while others are more rough and textured. The overall color palette is warm and earthy, with the red tones providing a strong contrast to the lighter fragments.

BRECCIA RED

Warm and exuberant, this breccia combines shades of red, pink and beige with marked veins. Ideal for bold projects, it conveys energy and has a strong visual impact.

Perfect for striking walls, fireplaces or contrasting elements. It adds character to any room.

MAJESTA BEIGE

Marble in shades of sand and golden beige, with a delicately cloudy texture. It is the ideal choice for those who desire understated, natural elegance. It blends harmoniously into residential or contract environments.

Excellent for continuous surfaces and environments with a Mediterranean or minimalist style.

MYSTIK SILK

Silky grey with subtle veins and light transparencies, this marble evokes softness and fluidity. Its velvety appearance makes it particularly suitable for modern and sophisticated spaces.

Elegant in both bathrooms and designer kitchens. A discreet choice, but one of great class.

The background of the entire image is a dense, intricate marbled pattern. It features a base of medium grey with a complex network of fine, white veins. These veins are not straight but meander and branch out, creating a sense of organic movement and depth. The overall effect is reminiscent of natural stone or a high-quality paper texture.

ORIGINAL GREY

Medium grey crossed by dense white veins that create a bold and vibrant marbled effect.

This marble lends itself well to combinations with natural materials such as wood and metal. It is ideal for contemporary interior design projects. The dense texture adds visual depth to surfaces.

ROSSO CARPAZZI

An intense, noble and deep red, crossed by golden and whitish veins that enhance its structure. This marble embodies all the strength and theatricality of natural stone.

Perfect for exclusive spaces, reception areas, monumental staircases or prestigious cladding. A material with a strong identity and impact.

SABBIA IMPERIALE

Light sand colour, with a very fine and uniform grain, it conveys a sense of warmth and tranquillity. Excellent for minimalist environments, wellness centres or residential projects in a soft natural style.

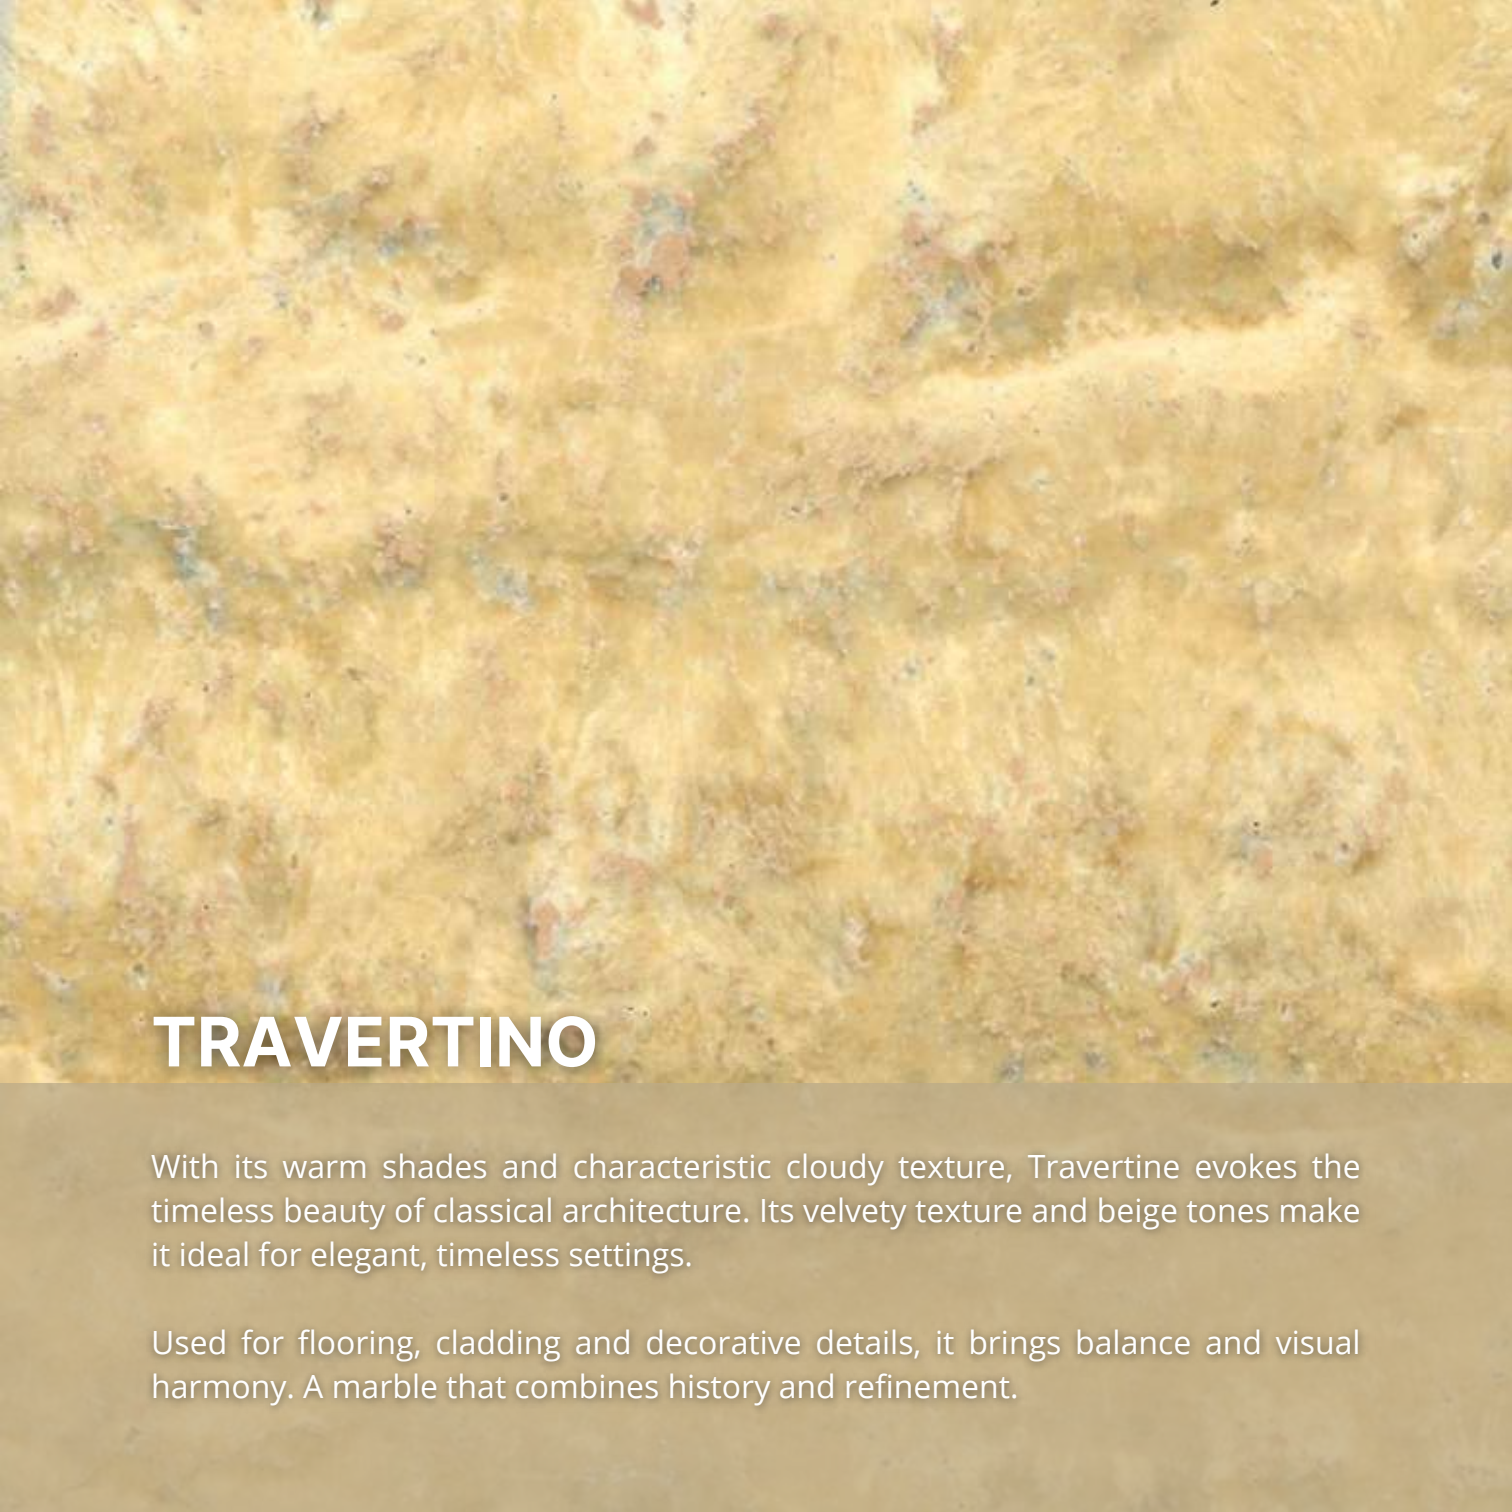

The matt or glossy surface enhances its elegant simplicity. Versatile and easy to combine.

The image shows a close-up of a marble surface with a 'Sand Beige' pattern. The background is a dense, granular texture of light beige and cream-colored micro-fragments. Scattered throughout are small, irregular fragments of darker colors, including brown, tan, and grey, which create a natural, sedimentary look. The lighting is even, highlighting the fine details of the stone's composition.

SAND BEIGE

Composed of a mixture of beige and ivory micro-fragments, this marble recreates the natural effect of sedimentary stone. Ideal for contemporary and bright environments.

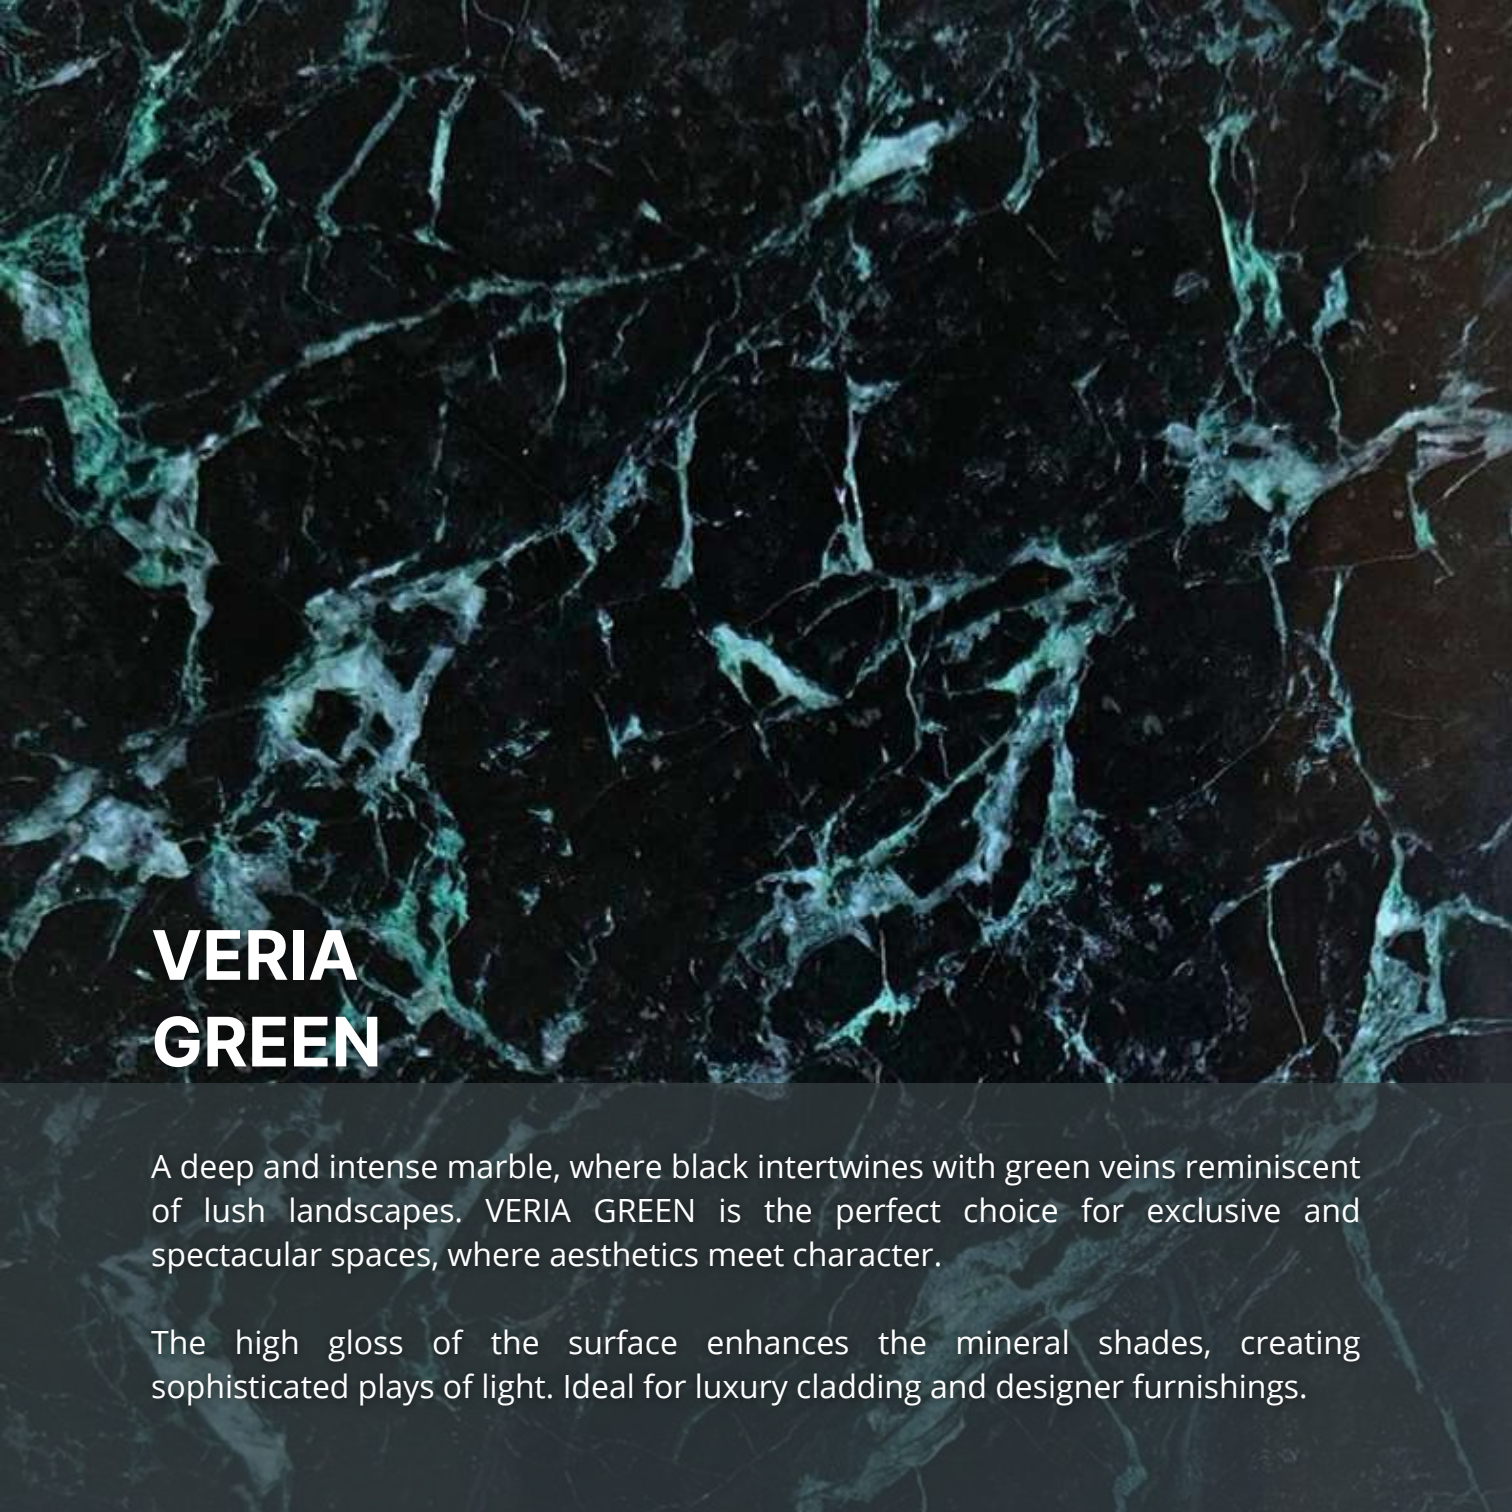

Excellent for large-format floors or continuous surfaces. A perfect balance between design and visual comfort.

TRAVERTINO

With its warm shades and characteristic cloudy texture, Travertine evokes the timeless beauty of classical architecture. Its velvety texture and beige tones make it ideal for elegant, timeless settings.

Used for flooring, cladding and decorative details, it brings balance and visual harmony. A marble that combines history and refinement.

VERIA GREEN

A deep and intense marble, where black intertwines with green veins reminiscent of lush landscapes. VERIA GREEN is the perfect choice for exclusive and spectacular spaces, where aesthetics meet character.

The high gloss of the surface enhances the mineral shades, creating sophisticated plays of light. Ideal for luxury cladding and designer furnishings.
